SUBSTITUTED SERVICE AND INTERMODAL SERVICE

A. SUBSTITUTED SERVICE

OThis provision shall govern the transfer of cargo by trucking or other means of transportation at the expense of the Ocean Carrier. B. INTERMODAL SERVICE

Carrier will provide through intermodal service via all combinations of air, barge, motor and rail service. Intermodal Rates will be shown as single-factor through rates as specified in individual TLI's. Carrier's liability will be determined in accordance with the provisions indicated in their Bill of Lading (Rule 8 Herein). Intermodal rates will apply via US Atlantic, Gulf or Pacific Coast Base Ports as specified in the individual tariff line items of this tariff. FMC Tariff No. 001 - Between (US and World)
Amendment No.: IR
Rule 2: Application of Rates and Charges

Effective: 02NOV2012 Thru: NONE Expires: NONE Publish: 02NOV2012

1. Rates published in this Tariff are stated in terms of U.S. Currency and apply per 1 Cubic Meter (M) or 1,000 Kilos (W), as indicated, whichever basis yields the greater revenue, except as otherwise specified. Where the word "Weight" or the letter "W" appears next to an article or commodity, weight rates are applicable without regard to measurement. Where the word "Measurement" or the letter "M" appears next to an article or commodity, measurement rates are applicable without regard to weight.

All freight rates and other charges shall be based on the actual gross weight and/or overall measurement of each piece or package, except as otherwise provided.

Rates indicated by W/M or WM are optional weight or measurement rates and the rate yielding the greater revenue will be charged.

2. Except as otherwise provided, all "Port" (i.e., Port-to-Port) rates published herein apply from/to places where the common carrier originates or terminates its actual ocean carriage of cargo. Tolls, Wharfage, Cost of Landing, and all other expenses beyond the port terminal area are for account of Owner, Shipper or Consignee of the cargo and all such expenses levied in the first instance against the Carrier will be billed in an equal amount to the Owner, Shipper, or Consignee of the Cargo.

The "Point" rates named in this Tariff are applicable from Inland Points which lie beyond port terminal areas. Such rates will be shown as single-factor through rates.

Such rates shall be inclusive of all charges pertinent to the transportation of cargo (including intermediate but not Origin or Destination Terminal Charges) but not including Customs clearance assessments or Forwarding Charges, except as provided.

Alternatively, at shipper's request, carrier will arrange for inland transportation as shipper's agent. All associated costs will be for the account of the cargo. Overland carriers will be utilized on an availability of service basis and not restricted to any preferred Carriers, except as Ocean Carrier deems necessary to guarantee safe and efficient movement of said cargo. (See item 16, re: Advanced Charges.)

Carrier shall not be obligated to transport the goods in any particular type of container or by any particular Vessel, Train, Motor, Barge or Air Carrier, or in time for any particular market or otherwise than with reasonable dispatch. Selection of Water Carriers, Railways, Motor, Barge or Air Carrier used for all or any portion of the transportation of the goods shall be within the sole discretion of the Ocean Carrier.

3. Packages containing articles of more than one description shall be rated on the basis of the rate provided for the highest rated articles contained therein.

4. Rates as published herein do not include Marine Insurance or Consular fees.

5. Description of commodities shall be uniform on all copies of the Bill of Lading and MUST be in conformity with the validated United States Export Declaration covering the shipment. Carrier must verify the Bill of Lading description with the validated United States Export Declaration. Shipper amendments in the description of the goods will only be accepted if validated by United States Customs.

Trade names are not acceptable commodity descriptions and shippers are required to declare their commodity by its generally accepted generic or common name.

6. Unless otherwise specified, when the rates in this Tariff are based on the value of the commodity, such commodity value will be the F.O.B. or F.A.S. value at the port of loading as indicated on the Commercial Invoice, the Custom Entry, the Import/Export Declaration or the Shipper's Certificate of Origin. The F.O.B. value and the F.A.S. value include all expenses up to delivery at the Loading Port.

7. The rates shown in this Tariff except where predicated on specifically lower values or on an ad valorem basis, are subject to Bill of Lading limit of value.

8. Except as otherwise provided, rates published in this Tariff apply only to the specific commodity named and cannot be applied to analogous articles. Unless a commodity is specifically provided for the applicable Cargo, N.O.S. rate shall be applied.

9. Wherever rates are provided for articles named herein, the same rate will also be applicable on parts of such articles where so described in the ocean bill of lading, except where specific rates are provided for such parts.

10. FORCE MAJEURE CLAUSE: "Without prejudice to any rights or privileges of the Carrier's under covering Bills of Lading, dock receipts, or booking contracts or under applicable provisions of law, in the event of war, hostilities, warlike operations, embargoes, blockades, port congestion, strikes or labor disturbances, regulations of any governmental authority pertaining thereto or any other official interferences with commercial intercourse arising from

the above conditions and affecting the Carrier's operations, the Carrier reserves the right to cancel any outstanding booking or contract in conformity with Federal Maritime Commission Regulations."

11. When a commodity can properly be carried under more than one tariff item, but which by its nature is clearly influenced by its end use, the freight shall be assessed based on the rate of the end use commodity, eg: Rubber Gloves, Cotton Gloves, etc. would all be rated under "Gloves, N.O.S." rather than Rubber Goods, Textiles, etc.

The above does not apply in cases where there is a specific tariff rate for the commodity in question, eg: If the tariff contains a rate for Rubber Gloves, then this rate will apply - and NOT the Gloves, N.O.S. rate.

12. When two or more rates may be applicable to a given shipment and one rate is more specific than the others, the most specific rate shall apply. One rate is more specific than another when it describes the commodity being shipped more explicitly, i.e.: Canned Pineapple is more specific than Canned Fruit or Canned Goods, N.O.S.

A rate from/to a specific destination is more specific than a rate to/from a geographic range or zone, (Examples):
A rate from New York, NY is more specific than a rate from Atlantic and Gulf Base Ports (AGBP).
A rate to Yokohama, Japan is more specific than a rate to Japan Base Ports (JBP).

13. Any Tollage, Wharfage, Handling and/or other charges assessed against the cargo at Ports of Loading/Discharge will be for the account of the cargo. Any Tollage, Wharfage, Handling and/or Charges at Port of Loading in connection with storage, handling and receipt of cargo before loading on the vessel shall be for the account of the cargo.

Any Additional Charges which may be imposed upon the cargo by Governmental Authorities will be for the account of the cargo.

14. TYPES OF SERVICE PROVIDED

Rule 2-015: Pass Through Charges

Effective: 02NOV2012 Thru: NONE Expires: NONE Publish: 02NOV2012

Carrier may publish with immediate effect changes in charges and additional charges which are not under the control of Carrier and which Carrier passes through to its customers without mark-up. Certain of Carrier's charges to Shippers are based on rates charged to Carrier by third parties, such as terminals, public authorities and vessel operating carriers.

From time to time, these third parties impose charges on the Carrier in a manner that prohibits Carrier from providing a thirty-day notice of the increase. When Carrier passes these charges through to Shippers without mark-up, they will be published in this Tariff with an effective date matching the effective date of the underlying service provider. Although Carrier will endeavor to publish these pass through charges as quickly as possible after it receives notice, they may, in some cases, take effect upon publication.

FMC Tariff No. 001 - Between (US and World)

Amendment No.: IR

Rule 2-060: Measurement And Weight

Effective: 02NOV2012 Thru: NONE Expires: NONE Publish: 02NOV2012

Tariff reference to "W" and "M" signify 1,000 kilos and 1 cubic meter respectively. Whenever freight charges are assessed on a W/M "weight or measurement" basis or where rates are provided on both a "W" and "M" basis, the freight charges will be computed on the gross weight or the overall measurement of the pieces or packages, whichever computation produces the greater revenue to the Carrier.

1. All packages will be measured in CENTIMETRES and weight in KILOGRAMMES.
2. Rounding off- Dimensions
Where parts of centimeter occur in dimensions, such parts below 0.5 cm. are to be ignored, and those of 0.5 cm. And over are to be rounded off to the centimeter above.
3. Calculating Cubic Measurements
The three dimensions in centimeters (rounded off in accordance with (2)) are to be multiplied together to produce the cube of one package or piece in cubic meters to six decimals.

In case of a single package the decimals are to be rounded off at the second decimal, i.e., if the third decimal is below 5 the second decimal remains unaltered; if the third decimal is 5 or higher the second decimal is to be adjusted upwards. In the case of multiple packages of like dimensions the cube on one package to six decimals is to be multiplied by the number of packages and the total cube is then to be rounded off to two decimals under the foregoing procedure.

4. OFFICIAL MEASURERS AND WEIGHERS

The straight loaded shipments of consolidator Cargo, stuffed at Carrier's nominated off dock CY locations, does not require measuring/weighing for purposes of confirming volume/weight of cargo. For such shipments, however, there must be a certificate from an officially appointed Sworn Measurer to confirm the exact location at which the shipment was stuffed into the container.

5. MISDESCRIPTION, UNDERWEIGHTS AND UNDERMEASUREMENT

A. The carrier at loading port will assess freight on the shipments on the basis of the gross weights and/or measurements declared or deemed to have been declared by Shippers. Such assessment is subject to the terms and conditions of the carrier's Bill of Lading. Notwithstanding the foregoing, Carrier may arrange at the port/point of destination for the verification of the description, measurement or weights of all such shipments as they, at their sole discretion, may decide and in all such cases the description, measurements or weights so obtained shall be used for determining the correct amount of freight which has to be paid and expense incurred should be for account of cargo.

B. If the gross weights and/or measurements declared by the Shippers are less than those ascertained and if the Shippers, by notification to the Carrier, within seven (7) days of the vessels sailing from port of loading or the consignees, by notification to the Carrier prior to the shipment leaving the custody of the Carrier, maintain that the gross weights and/or measurements stated by them are correct, freight shall be assessed provisionally on the controllers' figures and subsequently adjusted, if necessary, after an outturn reweighing and/or re-measuring. Amendment No.: IR	
Rule 2-140:	FDA PRIOR NOTICE

Effective: 02NOV2012 Thru: NONE Expires: NONE Publish: 02NOV2012

A. Prior Notice and Registration Requirements:

Pursuant to regulations effective December 12, 2003 (see 21 C.F.R. Parts 1 and 20), the FDA must be provided with notice of food that is imported or offered for import into the United States (i.e., the continental U.S., Alaska, Hawaii and Puerto Rico) by water at least eight (8) hours prior to vessel arrival. The term "food" means: (i) articles used for food or drink for man or other animals; (ii) chewing gum; and (iii) articles used for components of food or chewing gum (see 21 U.S.C. Sec. 321(f)). However, the term does not include meat products, poultry products, and eggs products that are subject to the exclusive jurisdiction of the U.S. Department of Agriculture. In addition to prior notice of food shipments, the new FDA regulations require that U.S. and foreign facilities which are engaged in the manufacturing, processing, packing, or holding of food for consumption in the United States ("subject facilities") register with the FDA.

B. Responsibility for Prior Notice and Registration:

It shall be the responsibility of the shipper and/or consignee named in Carrier's bill of lading (hereinafter collectively referred to as the "Cargo Interests"), to ensure that prior notice of any shipment of food (as that term is defined in Paragraph A) imported or offered for import into the U.S. is provided to the FDA in accordance with applicable regulations and that any subject facility (other than a subject facility of Carrier) which has manufactured, processed, packed or held such food shipment has registered with the FDA in accordance with applicable regulations.

C. Evidence of Compliance:

With respect to any food shipment for which a prior notice confirmation number ("PN Number") is required to be provided to the Bureau of Customs and Border Protection ("CBP"), FDA, or any other government agency upon arrival, it shall be the responsibility of Cargo Interests to ensure that such PN Number has been provided to the required agency(s) and other persons prior to vessel arrival. In addition, Cargo Interests shall be required to provide Carrier with the PN Number immediately upon written request of Carrier.

D. Failure to Comply:

1. In the event that any food shipment is delayed or refused entry into the United States due to the failure to provide adequate prior notice or the failure of a subject facility to register with the FDA, it is expected that notice of refusal will be provided to Carrier by the FDA and/or CBP. Carrier will use best efforts to promptly transmit the notice received from the authorities to the Cargo Interests, who shall be responsible for transmitting such notice to any other persons with an interest in the cargo. Carrier shall not be liable for any delay in the transmission of, or failure to transmit, such notice or any consequences thereof.

2. In the event that any food shipment is delayed or refused entry into the United States due to the failure to provide adequate prior notice or the failure of a subject facility (other than a subject facility of Carrier) to register with the FDA, or if it is determined that cargo which should have been refused entry has been permitted to enter the United States, then the Cargo Interests shall be jointly and severally liable to indemnify, hold harmless, and reimburse Carrier (and by booking a shipment with Carrier do thereby agree to indemnify, hold harmless and reimburse Carrier) for any and all costs, expenses, liabilities, damages, or losses incurred by the Carrier as a result of such non-compliance including, but not limited to, costs of complying with orders and directions of FDA and/or CBP, costs for handling and storing cargo, demurrage, subsequent transport of the cargo by any mode of transportation, and fines and penalties.

Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell such cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, or to defend any action resulting from actions or events covered by this indemnification, Carrier shall be entitled to recover all costs (including attorneys' fees) incurred in connection with such legal action. For purposes of this paragraph, the indemnification provided to Carrier shall also extend to its agents, affiliates, contractors, employees, vessel-sharing partners, slot charterers, vessel owners, and insurers.

Hazardous Cargo Misdeclaration

Carrier is a Non-Vessel-Operating Common Carrier (“NVOCC”) that assumes responsibility for the transportation of Merchant’s cargo and uses the services of Vessel Operating Common Carriers (“VOCCs”) to physically transport the cargo. Certain VOCCs assess penalties when hazardous cargo is not properly declared, marked or packaged in accordance with applicable IMO, US Department of Transportation or other applicable laws or conventions or when requests are made to amend prior cargo descriptions and declarations after cargo is booked. These penalties involve situations including, but not limited to: incorrectly declaring cargo as “hazardous” when it is non-hazardous, declaring

an incorrect IMO Class or UN number, failing to properly declare cargo as “hazardous”, requests to amend the descriptions or declarations of cargo, and improperly packing and/or marking of hazardous goods. Any penalties assessed by the VOCC carrying Merchant’s cargo (whether in the VOCC’s tariff, service contract or otherwise) will be paid on Merchant’s behalf by Carrier and passed through to Merchant without mark-up.
